DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Chiu.

Chiu's Fig. 3 illustrates a logic circuit for multiplying two N bit binary numbers including an array generation logic for performing a first stage of logical combining (the forming of the partial products as illustrated in Fig. 2 and shown as stored in Fig. 3) and for performing a second stage of logical combining (the operation of stages 302 and 304 that results in the maximal depth of the array as six), array reduction logic (stages 306 and 308 with the exception of the CPA) and addition logic (the CPA).

Claim Rejections - 35 USC § 112

3. Claims 1, 4, 8, 10-13, 19 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 4, 8 and 10-13 fail to clearly set the claimed combination of elements of the recited "logic circuit". Claim 1 refers to "the results" of OR and EXOR logic but fails to clearly recite the OR and EXOR logic and claim 4, 8 and 10-13 are merely the recitation of function

Art Unit: 2124

without clearly reciting the structure that is necessary to effect the function. In claim 1 lines 11-12 and 15-16 are mis-descriptive and what disclosed structure performs each of the recited functions. Structure recited to dependent claims fails to be clearly related to previously recited structure, e.g. note the EXOR logic and the AND logic of claims 2 and 1. Claim 19; lines 7-11 are mis-descriptive because they are inconsistent with Fig. 18. Claim 21 is inconsistent with claim 1 because it is directed towards a multiplier whereas claim 1 is limited to a counter. It is suggested that claim 21 be rewritten as an independent claim.

Allowable Subject Matter

4. Claims 1, 4, 8, 10-13, 19 and 21 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2124

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
